DETAILED ACTION

Allowable Subject Matter

Claims 1-6 are allowed.

The following is an examiner's statement of reasons for allowance:

Claims 1 and 6 includes limitations that a stimuable phosphor reading apparatus comprises integration processing means for carrying out data processes for image pixel data corresponding to individual detector pixels and for image pixel data corresponding to two or more detector pixels.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Dewaele, cited in the action mailed November 17, 2003, describes a stimuable phosphor reader which calculates the value of an image data pixel by using data from a plurality of pixels (abstract).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Timothy J. Moran whose telephone number is 571-272-2443. The examiner can normally be reached on M-F 8:30-5:00.
